“ Jeff was my big brother (not by blood relation), for 9 years. He watched over me & cared about me much more than my actual brother.

So many great memories, playing baseball, football, just hanging around.

He would run bases for me in baseball, because I couldn't run much. A few times when I was allowed to play (touch) football, he would grab me under one arm & run. He was a great friend, as were Harry & Easter.

Babysat his nephew a few times.

I would be there for his funeral, but I am now living in Colorado & no car, disabled & can't drive, also no car.

Sending love to all his family & friends.

He has always been in my thoughts, always will be.
