“ I'm so sad to see that Butch has passed. We were friends growing up on 21st street and into early adulthood.

Butch was always the mastermind as we grew up building club houses and forts in our back yards. The swimming pool at the Wertzlers was always a great time back in the day as well.

Butch would always be the guy to help fix a car as we all started driving our first cars. He had the answers and knowledge to repair just about anything.

I really regret losing contact with Butch later in life, he was always a good friend to me and we had great times growing up. I'll miss him and remember our friendship forever.

My condolences to Louan and Lori as well as the family.
