Got to know Steve about 2 years ago. He would park his truck at the dead end road near my house. He would typically be reading a book or just enjoying nature. After I got to know him a little, he asked me if there was anything he could help me with. Do he helped put the trusses on me shed addition, last summer. Winter went by and we reconnected in March of 2025. Again Steve wanted to help me with anything. So we put up some storage racks in my shed addition with numerous other little projects. I had a 3 season room to build in Slinger. Steve came every day to help. He got to know the homeowners and neighbors. We had pretty much wrapped up the project and did some cleanup at the job, on Friday. Steve was supposed to work at the pizza place but they didn't need him. So he stopped by my place and helped me unload my truck. After that we enjoyed a beer together and had some casual conversation. On Saturday sometime after 2:00 Steve dropped off my hammer drill, and apparently went to work at the pizza place in Hubertus. And that was the end. Steve also watered my wife's flowers at the house when we were up north. We miss him, his smile and his friendship that we had the opportunity to enjoy in 2025. Rick and Bev Krebs.
